RAILROAD COMMISSION TO ACT
SOON ON RATE RAISE IN TEXAS

Whether railroad rates within the state of Texas are to be increased as much as interstate rates were recently increased is to be decided soon by the Texas railroad commission, according to A. T. Tadlock, manager of the traffic department of the chamber of commerce. Mr. Tadlock has just returned from the rate hearing recently held in Galveston.

The hearing was to have been held in Austin on Aug. 7, but was postponed to Aug. 11 in order that the commission might have the benefit of the interstate commerce commission's decision. The railroad commission has been authorized to increase rates on the line that divides the western group and the Mountain-Pacific group. The line follows the Santa Fe from here to Trinidad and then runs north through Pueblo, Colorado Springs, Denver and Cheyenne. Rates on traffic moving between points on this line will be increased 10 percent which includes switching charges and other special services.

Rates between El Paso and points west will be increased 10 percent. The increase between El Paso and points east will be 10 percent.

Will Ask Revision. Inasmuch as the rates from eastern points to Denning will in some cases be lower than the rates to El Paso, Mr. Tadlock said Monday that the carriers will have to correct the discrepancies.

A statement issued at the chamber of commerce says:

There are a great many cases where the rates from Kansas City

BAKER TO BE THE
GUEST OF EL PASO

Acting mayor R. C. Semple has agreed to host Gen. R. L. Howe in an invitation to secretary of war Baker to attend the military festival to be held at Fort Bliss about October 1. In event that he comes, the secretary of war will be a guest of the city while here.

It is planned to hold the "Made in El Paso" exposition about the time of the military festival, so that the two events will attract as many people from surrounding communities as possible.

The definite dates have not been set pending receipt of information from Mr. Baker relative to his choice of dates about October 1.

REDS MAKING EFFORT
TO RULE ENTIRE WORLD
(Continued from page 1)

Small groups with victory over the noise, are being subjected to propaganda which declares Freuchen will be shot on sight, that the Germans are friends who soon will be completely controlled by the Polish corridor, which they intend to occupy, leaving a kilometer neutral zone about Danzig.

When the correspondent arrived here, crossing the border at Cuernavaca by the aid of Poles and a wagon filled with straw, he called on the Polish soviet commissary who recently was established in offices by the Bolshevik military.

Americans Ignored. Han Scharnewski, the Polish Jew with protruding eyes and blond mustache and wears a white collar. He acknowledged the correspondent's greeting and then sat down to dinner, ignoring the American.

At the commissary's side a Russian soldier armed with a revolver stood watch and all conversation was interpreted to him in Russian. The commissary's assistant, a former German officer, said this Russian was a soviet representative who watched all business transacted by Scharnewski and reported to the soviet government, although he never interfered with the commissary's procedure.

When the commissary finished eating his meal of soup, steak smothered with onions, potatoes and beer, he talked to his office, directing the correspondent to wait. After an hour he returned, demanded the correspondent's passport which he gave to him, and then returned to his office.

After waiting two hours, the correspondent wandered about talking to inhabitants, among who were many Jews. He was told they did not know whether they were going under Russian, Polish or German rule, but said they had heard rumors there would be a plebiscite in which the people would be permitted to vote whether they desired to adhere to Russia or Germany. Inhabitants declared such a vote would be overwhelmingly for Germany.

Eager for News. Everywhere the people asked for news of the war and other news of the world, saying all intelligence came from the German border through conversations with German guards, who sometimes gave them German newspapers.

There is no commerce with the rest of Russia by telephone, telegraph or railway and inhabitants of villages along the frontier have been existing on the products of the farms. They feed animals, grow corn and wheat, and produce other necessities of life. They are poor, but they are not starving.

LABOR WOULD STRIKE IF U. S. HELPS POLAND
Chicago, Ill., Aug. 16.—The Chicago Federation of Labor yesterday adopted a resolution demanding a general strike of workers if the United States gives military aid to Poland.

The resolution recites that the allies are fighting that Poland "fight the soviet, which is a government of the workers, and declares that the United States is showing a decision toward 'unfriendly action against the workers' government of Russia."

SHIPS SUNK BY SCUTARI
London, Eng., Aug. 16.—Serbian forces have occupied Alessio and the Scutari and cutting its communications with Durazzo and Turana. News, quoting an Aviona telegram to the idea Nazimale of Roma.

TO BEGIN WORK
ON STREET LIGHTS

The work of installing a new lighting system on Texas street, which will make the four blocks between Oregon and Campbell streets the brightest four blocks in the United States, according to local engineers, will be begun this week, probably Wednesday.

The 24 posts for the lights arrived Saturday. They will be placed eight to a block, four on each side of the street, except between Kansas and Stanton streets, where 10 posts will be used, five on each side of the street. The posts are of cast iron, 12 feet high, fluted and tapering to the top from the ground. They probably will be painted white. Each post will support a single 100-candle-power light.

Word has been received by officers of the Texas street business men's association that the rest of the fixtures has been shipped and will reach El Paso by the end of the month. It is planned to have a carnival, celebrating the completion of the work and the turning of the lights, the night of September 24.

A. Silberberg, president of the association, will call a meeting of the association for one night this week, to make plans for the celebration. He also plans to call a meeting of the city council for authority to block the street against the celebration. He said that city officials and officers of the chamber of commerce will be asked to participate in the celebration.

The system which is being installed at a cost of \$1000 has been obtained and will be supported by the business men of that district.

Fake Jewelry
Auction Sales
To Be Stopped

City officials will go after the scum of the itinerant jewelry auctioneer if one should appear in El Paso during the holidays to dispose of his wares, according to an announcement of acting mayor R. C. Semple.

Just prior to Christmas heretofore, he said, such auctioneers with large stocks of cheap goods have made their appearance in the city, and have sold their wares at a profit. He said that they are not only selling cheap goods, but also are selling fake jewelry. He said that he has been informed by reputable jewelry concerns that they are being sold at a 30-year guarantee.

Thousand of dollars have been taken from El Paso by these itinerant auctioneers, Mr. Semple said. The city council is considering the passage of an ordinance designed to curb these sales.

LIBRARY PUBLISHES LIST
OF NEWLY ACQUIRED BOOKS

A book list of all the titles of books added to the El Paso public library from July 1, 1918, to June 30, 1919, has been compiled by Mrs. Maud D. Sullivan, librarian, and is available to the public. The books cover a wide range of subjects and most of them are the direct result of many queries for books on such topics. They include reference books on engineering, geology and other subjects, many of the newest works in fiction and poetry, and a great number of foreign books, especially those in Spanish and French.

MUGGSY MUST EXPLAIN
LIQUOR AT LAMBS' CLUB

New York, Aug. 16.—Federal prohibition enforcement agents were ordered today to bring John J. McGraw, manager of the New York Giants, to the United States district attorney's office to explain the liquor at the Lambs' club.

The Fall Displays

Further Interesting Fall News For Interested People

WE know this is earlier in the season than we usually specialize on fall displays, but it happened that at this season shipments have been earlier and in larger quantities. You are cordially invited to come and see the displays which, in every case are a correct forecast for fall fashions. In connection with the advance displays, we want to emphasize the moderate price at which you can buy new fall garments.

Dresses At \$37.50
Fall Suits at \$49.50

THIS moderate price we offer are correct fall styles in serge, tricot—dresses which show touches of color in yarn embroidery and satin. These dresses show wide panels of accented pleating and belts of self material. In satin and charmeuse, you will find dainty touches of lace and iridescent beading. These dresses are an introductory special at \$37.50 \$49.50

Luxurious Furs Moderately Priced
OUR advance display of fall furs is by far one of the most comprehensive we have ever made. This display offers variety, much beauty, and the assured styles of autumn. You are asked to buy now because we can offer you savings. Every fur is sold under its real name and the reputation of The Popular is behind every fur sold. Pretentious furs and fur coats are shown in a beautiful assortment and smaller furs and fur pieces are offered in endless choice. By making a deposit or using your charge account, any fur will be reserved for you now for future delivery.

A big feature in the Millinery Section this fall is model hats at \$29.50, from Salinger, Goldfarb, Gage and Meadowbrook. In addition, we offer moderately priced fall millinery of much style at \$10, \$12.95, \$15 and \$25. —5th Floor Millinery Section.

Clothes For College
Girls Who Care

AS we announced some time ago, we have made special preparation this season to serve the young women of El Paso who are going away to college. Clothes play a most important part in a girl's education. Having this in mind, we have assembled this season everything the girl needs for college—whether it be The El Paso School for Girls, Bryn Mawr or Vassar.

Opposite we mention some of the items we offer in correct dress for girls. Girls' Own Shop—4th Floor.

The Luggage Shop of the 2d Floor is amply prepared to supply the necessary trunks, bags, suit cases and hat boxes.

Cracks In Arizona Concrete Paving
Are Not Harming Pavement In Least

Simple Explanation Clears Up Cause for Criticism; Cracks Provided For.
PHOENIX, Ariz., Aug. 16.—The wild-eyed theory advanced by critics of the state highway department that because cracks were appearing in cement paving jobs it was a sure sign that the pavements were going to pieces, was punctured today by a simple explanation made by Tom Maddock, chief engineer of the department.

"We are entirely satisfied with this form of construction and the manner in which it is being done, and the federal government, which has approved our plans and specifications is satisfied. I am only sorry that the critics are so easily misled," he said.

"The cracks in question are nothing more than natural expansion joints, and they are placed at regular intervals of 200 feet. The expansion joints must be either put in artificially or it must occur naturally. Because of the same kind of paving as that which has been laid by the state and by the counties of Arizona and New Mexico."

"It is true," continued Maddock, "that cracks have appeared in this type of paving. It is also true that the expansion joints are not perfect. The cracks in question are nothing more than natural expansion joints, and they are placed at regular intervals of 200 feet. The expansion joints must be either put in artificially or it must occur naturally. Because of the same kind of paving as that which has been laid by the state and by the counties of Arizona and New Mexico."

GREAT METAL AIRPLANE ARRIVES WITH PASSENGERS
(Continued from page 1)
8:40 o'clock Sunday morning. Its flight was slower than usual, due to high winds.

See New Era.
The day far away in Mr. Larsen's opinion when all metal monoplanes will replace trains for the carrying of passengers. They will be even safer than trains, he says, for they are fireproof and wrecks are impossible. They will be faster, probably attaining a speed of 200 miles an hour. Moreover they will be clean. The next step in the manufacture of monoplanes with sleeping compartments, baths, etc., as they now have in England and Germany.

At present it takes about eight gallons of gasoline to drive the plane an hour. But in an hour the machine can go 250 miles.

Nobody was happier to see Mr. Rickenbacker than Sgt. A. B. Jolly, senior transport command at Fort Bliss. Sgt. Jolly's brother, Lieut. A. J. Jolly, was Mr. Rickenbacker's

Scenic Drive
Ready For Use
By September 1

Formal opening of the scenic drive will follow immediately after the return of mayor Charles Davis, who is expected to resume his official duties September 1, according to acting mayor R. C. Semple.

With the exception of the surfacing of the drive, for which calculations are being made, all work has been completed, and final estimates for the work have been paid. Work has progressed far enough to provide an excellent driveway, but utilization of the drive at the present time, Mr. Semple said, would destroy the surfacing, which must be given time to settle.

SANTA FE BUILDS BRIDGE
TO DRAIN CANUTILLO

A Santa Fe railroad construction crew is expected to finish today a bridge at Canutillo lake, north of Borland, which will drain the entire lake and handle flood waters which have troubled the county engineers for months, according to county engineer L. A. White.

At present the lake is overflowed from rains and flood waters off the mountain, and has submerged the country road to a depth of one and one-half feet. Traffic on the road necessarily stopped, and many cars were damaged to the western travel route running north.

The bridge will be 15 feet in length.

IRISH RIOTING RESUMED;
CONSTABLE BADLY HURT

Belfast, Ireland, Aug. 16.—Rioting was renewed last night, but no fire arms were used. Short Strand, a nationalist area in east Belfast, was the battle ground. Contending parties threw stones at each other, the locality remaining virtually in a state of siege until after midnight.

Four nationalists were arrested and one constable was so badly injured he was taken to a hospital.

A party of Sinn Feiners returning from a sports meeting near Lurgan, county Armagh, yesterday, was fired on, one being killed and another dangerously wounded.

BAND CONCERT PROGRAM

The program for the band concert to be given in Cleveland Square Tuesday night follows:

March, "Salut a Progress" (Gaston)
Overture, "Il Guarany" (Gomes)
Vocal solo by Ned Nicholson, "Hilawatha's Melody of Love" (Mayer)

Popular numbers:
"O, What a Pal Was Mary" (Wending)
"Swingtime" (Wending)
Clarinet solo by J. M. Cascon, Concert Fantasia from Verdi's opera, "Trilopetta."
Spanish Serenade, "Anita" (Allan)
Request, "Saxette from Lucia" (Denzetti)
Soloist, "Saxophone" (Forty)
Five Minutes from Broadway.

Make Up A Budget

Practically every successful business operates on a budget system, for blind expenditure of money is the sure road to poverty.

On the first of the month decide on how much you will spend for your various needs and then pare them to the core.

Be sure to allow for at least a small saving and deposit that amount in "Everybody's Bank" WHEN YOU GET YOUR PAY.

At the end of the month you are going to feel better. Try it.
